Amend Taxes (Parent or Student)

Based on information provided on the FAFSA in regards to the marital status of parent and/or student, as well as information listed on the conflicting marital status form, it has been determined that your filing status on your tax form is not in compliance with Federal IRS guidelines (please reference IRS Publication 501, pages 6-10 on the [irs.gov](https://www.irs.gov) website for more details).

In order to move forward, you will need to amend your taxes to a filing status that does adhere to IRS guidelines or provide a letter from the IRS that your filing status is correct based on your marital status.
