### **Disciplinary Proceeding Disclosures**

When a student is accused of violating the Student Code of Conduct for a prosecutable or non-prosecutable offense, an investigation may be required and may result in the student's suspension for a determined length of time until the investigation has been completed. Requests for a disclosure of disciplinary proceedings must be submitted in writing to the Vice President for Student Affairs. All written requests, including those made by the victim or victim's next of kin, will be handled in accordance with University and Federal privacy policies.
